Alvaro Umaña, Director of the Environmentally Sustainable Development Group, United Nations Development Programme

1:10 p.m. **Question and Answer Session**

1:45 p.m. **Closing Remarks and wrap up**

The Stanford Woods Institute for the Environment works to produce breakthrough environmental solutions that protect and nurture our planet so it can meet the vital needs of people today and of generations to come. Woods is the go-to place for faculty, researchers and students representing all seven Stanford schools to collaborate in pursuit of innovative

solutions. Learn more: woods.stanford.edu

The **Natural Capital Project** (NatCap) pioneers science, technology, and partnerships that enable people and nature to thrive. They work to integrate the value nature provides to society into all major decisions. Their ultimate objective is to improve the state of biodiversity and human well-being by motivating greater and more targeted natural capital investments. Led by Stanford, NatCap operates as a partnership between the Chinese Academy of Sciences, the University of Minnesota, the Stockholm Resilience Centre, The Nature Conservancy, and the World Wildlife Fund.
